ABOUT ME

Full Stack Developer with experience building scalable, high-performance web applications using **React, Vue.js, Laravel, MySQL, and Tailwind CSS**. Skilled in developing clean, maintainable systems that balance technical excellence with real business impact.

Experienced in **revamping legacy platforms into modern architectures**, including contributions to a blockchain-based certification system adopted by 100+ institutions. Strong background in **performance optimization, responsive UI development, and CI/CD pipelines (Jenkins)**.

Comfortable working in Agile environments, collaborating across teams to translate complex requirements into **intuitive, user-centric interfaces**.

Brings a disciplined, analytical mindset through experience in financial markets and proprietary trading evaluation, applying structured decision-making and risk management principles.

WORK EXPERIENCE

- Junior Full Stack Developer, MASVERSE TECHNOLOGIES SDN. BHD., PUCHONG, SELANGOR
Apr 2024 - Present
 - Developed and maintained scalable web applications using **Laravel, Vue, and React**, delivering reliable and user-focused solutions aligned with business requirements.
 - Led the **revamp of a legacy education platform into a blockchain-based certification system (BlockchainCert)**, now adopted by **100+ universities nationwide**, improving digital credential verification efficiency.
 - Migrated legacy system from **Yii to Laravel + React**, enhancing system performance, maintainability, and scalability.
 - Designed and built a **Canva-like certificate editor**, enabling users to create customizable digital certificates with improved usability and flexibility.
 - Contributed to the development of **MyKapital**, an investment platform (primary & secondary market) under **SSM Interest Scheme regulations (SC & BNM)**.
 - Optimized application performance to support **1000+ concurrent active users**, improving system responsiveness and stability.
 - Ensured seamless front-end and back-end integration, reducing system errors and enhancing overall application reliability.
 - Implemented and supported **CI/CD pipelines using Jenkins**, reducing manual deployment effort and improving release consistency.
 - Actively participated in **Agile practices** including sprint planning, daily stand-ups, and cross-functional collaboration to accelerate feature delivery.

- Full Stack Developer (Part Time) - Ujilari Studio
March 2026 - 31 May 2026
 - IT support and troubleshooting
 - System administration and maintenance assistance
 - Minor system configuration and improvements
 - Development support and coding task for PruBSN Takaful Crowd and REDI
- Proprietary Trading Evaluation - Certified Trader, FundingPips, AlphaCapitalGroup
Sep 2024
 - Passed a proprietary trading evaluation under strict **risk and drawdown constraints**, demonstrating strong capital discipline
 - Applied **rule-based trading strategies** using price action, liquidity concepts, and market structure analysis
 - Maintained consistent performance while adhering to **risk limits and evaluation parameters**
 - Demonstrated ability to make **data-driven decisions under pressure in fast-moving market conditions**

- Web Designer, VEECOTECH SOLUTIONS SDN. BHD.
Apr 2023 - Oct 2023
 - Built and customized WordPress websites based on design mockups, ensuring **pixel-perfect implementation and responsive design**.
 - Enhanced website performance and usability through **layout optimization and UI improvements**.
 - Worked closely with project managers and clients to translate business requirements into functional web solutions.
 - Gained hands-on experience in **frontend development, CMS customization, and client communication workflows**.

- Intern IT Support, INFOGENIUS SKILL TRAINING CENTER Jan 2021 - Apr 2021
